Ashok Nagar, Seepat Road, Sarkanda, Bilaspur (C.G.)

**Collaboration with Electronics shop
(Trinity computer) for exchange of
obsolete electronic items and giving
discount on new purchase of electronic
items**

MEMORANDUM OF UNDERSTANDING

BETWEEN

TRINITY COMPUTERS, BILASPUR

AND

D.P.VIPRA LAW COLLEGE, BILASPUR

Dated :05 /12/2022 To 10/12/2025

This Memorandum of Understanding (MoU) is being entered by and :

**D.P. Vipra Law College, Ashok Nagar,
Sarkanda, Bilaspur (Chhattisgarh)**

And

Trinity Computers, Agrasen Chowk, Bilaspur

Objective:

The purpose of this MoU is to establish commercial exercises between The College and The Company to facilitate the exchange of obsolete computer Peripherals from The College and offer discounted rates on new electronic purchases for the College Management

Terms of Collaboration.

Exchange of Obsolete Electronic Items:

The College will provide Trinity Computers with obsolete or outdated electronic items that are no longer in use, such as computers, monitors, printers, and other electronic devices.

Trinity Computers will accept these items and ensure they are either recycled or disposed of responsibly, in compliance with environmental regulations.

PRINCIPAL
D.P. Vipra P.G. Law College
Bilaspur (C.G.)

2. Discounts on New Purchases:

Trinity Computers agrees to offer a discount on the purchase of new electronic items, including but not limited to laptops, desktops, printers, and accessories, for The College's faculty, staff, and students.

5. Duration:

This MoU is valid for a period of starting from the date of signing. It can be renewed or amended upon mutual agreement.

6. Termination:

Either party may terminate this MoU with a written notice to the other party.

PRINCIPAL
D.P. Vipra P.G. Law College
Bilaspur (C.G.)

Signatures:

Principal,

D.P. Vipra Law College

Date: 03/12/2022 **PRINCIPAL**
D.P. VIPRA LAW COLLEGE
Bilaspur (C.G.)

Jeetendra Shukla

Owner, Trinity Computers

Date: 03/12/2022

This MoU signifies the intention of both parties to collaborate for the stated objectives and is not legally binding unless agreed otherwise in a separate, formal agreement.

NOTICE

Subject: Value Added Programme on the **Energy Law and Renewable Energy**.

Dear Students,

We are pleased to announce a Value Added Programme on **Energy Law and Renewable Energy**, designed to provide the students of B.A.LL.B. 5th semester with valuable insights and practical skills.

Key Highlights:

Course Duration: September 6 through September 27, 2021

Timing: 12:30 PM to 2:30 PM

Facilitators: Faculties, Experienced professionals and experts in relevant field.

Certificates: A certificate of participation will be awarded upon successful completion

Registration: To secure your spot, please register by September 1st, 2021. Registration forms are available at office. Kindly submit your completed forms to concerned programme coordinator.

- For any queries or additional information, please contact the programme coordinator.
- Don't miss out on this valuable opportunity to enrich your skills/field knowledge. We look forward to your active participation.

COURSE STRUCTURE

Duration: 36 Hours

A course on Energy Law and Renewable Energy provides an in-depth understanding of the legal frameworks and regulations governing the energy sector, with a specific focus on renewable energy sources.

Below is a sample course structure for such a program:

1. Introduction to Energy Law:
 - Overview of energy law and its significance in the energy sector
 - Understanding the different sources of energy and their legal implications
 - Introduction to the principles of energy regulation and policymaking
2. Regulatory Framework for Energy:
 - Overview of energy regulatory bodies and their functions
 - Analysis of regulatory compliance and its impact on energy projects
 - Case studies on regulatory challenges in the energy sector
3. Environmental Law and Renewable Energy:
 - Understanding the environmental impacts of different energy sources
 - Exploration of environmental regulations for renewable energy projects
 - Study of sustainability and climate change policies in the context of renewable energy
4. Energy Policy and Planning:
 - Study of national and regional energy policies and their formulation
 - Analysis of energy planning and its role in promoting renewable energy adoption
 - Evaluating the impact of energy policies on energy security and sustainability
5. Energy and Social Justice:
 - Examining the social and economic impacts of energy policies and projects
 - Understanding the role of energy law in promoting equitable access to energy resources
 - Case studies on the intersection of energy law, social justice, and environmental concerns

OFFICE OF THE PRINCIPAL

D.P. Vipra Law College Bilaspur

Approved from BCL. Affiliated to Atal Bihari Vajpayee Vishwavidyalaya, Bilaspur (C.G.)
<https://dpvipralawcollege.ac.in> –Email – dpvlawprincipal@yahoo.com PH. No. – 9926165945, 9926138734

SUMMARY

While progress has been made in the renewable energy sector, India still faces several challenges. These include issues related to land acquisition, grid integration, and the availability of financing for large-scale projects. Despite these challenges, India's commitment to renewable energy remains strong. The country is actively exploring emerging technologies like energy storage and distributed energy systems to address grid stability and enhance the integration of renewable energy into the power system.

Overall, India's energy law and regulatory framework for renewable energy demonstrate a proactive approach in addressing climate change and transitioning to a sustainable and cleaner energy future. As the sector continues to evolve, it is expected that the country will remain at the forefront of the global effort to combat climate change and drive the adoption of renewable energy technologies.

D.P. VIPRA LAW COLLEGE BILASPUR (C.G.)

VALUE ADDED PROGRAM WILL BE HELD ON "ENERGY LAW AND RENEWABLE ENERGY"

Duration: 60Mins.

MM: 40

Note:

- All question are compulsory.
 - Each question carries 2 marks.
1. Which international agreement aims to promote renewable energy and energy efficiency worldwide?
 - a. Paris Agreement
 - b. Kyoto Protocol
 - c. Vienna Convention
 - d. Renewable Energy Framework Convention
 2. The concept of "Feed-in Tariffs" in renewable energy refers to?
 - a. Government incentives for fossil fuel industries
 - b. Fixed payments to renewable energy producers for the electricity they generate
 - c. Import tariffs on renewable energy technologies
 - d. Tax exemptions for renewable energy project
 3. Which of the following is a form of decentralized renewable energy generation that allows individuals or communities to generate their own power?
 - a. Hydropower plants
 - b. Grid-connected solar farms
 - c. Offshore wind farms
 - d. Distributed Generation
 4. The Renewable Purchase Obligation (RPO) in many countries mandates?
 - a. Compulsory purchase of fossil fuels by utilities
 - b. A certain percentage of electricity to be procured from renewable sources by power utilities
 - c. Tax incentives for renewable energy projects
 - d. Export of renewable energy technologies
 5. The "Net Metering" policy allows?
 - a. Utilities to sell excess renewable energy to consumers
 - b. Consumers to sell excess renewable energy to the grid
 - c. Tax exemptions for renewable energy consumers
 - d. Utilities to purchase renewable energy at a fixed rate
 6. The acronym "IPP" in the context of renewable energy stands for?
 - a. Independent Power Producer
 - b. International Policy Platform
 - c. Integrated Project Planning
 - d. Incentives for Power Projects
 7. The term "Power Purchase Agreement (PPA)" is commonly associated with?
 - a. Buying and selling fossil fuels
 - b. Agreements between governments and utilities
 - c. Contracts for the purchase of renewable energy
 - d. International energy diplomacy

Office Of

8. Which international organization promotes cooperation among countries in the field of nuclear energy for peaceful purposes?
 - a. IAEA (International Atomic Energy Agency)
 - b. IEA (International Energy Agency)
 - c. OPEC (Organization of the Petroleum Exporting Countries)
 - d. UNFCCC (United Nations Framework Convention on Climate Change)
9. The concept of "Carbon Trading" is often associated with?
 - a. Buying and selling carbon offsets
 - b. Taxation on carbon emissions
 - c. Renewable energy subsidies
 - d. Import tariffs on fossil fuels
10. The "Energy Efficiency Directive" of the European Union focuses on improving energy efficiency in?
 - a. Transportation only
 - b. Industrial processes only
 - c. Residential and commercial sectors
 - d. All sectors
11. Which of the following is considered a renewable energy storage technology?
 - a. Lithium-ion batteries
 - b. Natural gas storage
 - c. Pumped hydro storage
 - d. Diesel generators
12. The term "Energy Transition" refers to?
 - a. Shifting from renewable energy to fossil fuels
 - b. A gradual move from traditional to modern energy sources
 - c. Transitioning from nuclear to solar energy
 - d. Government control over energy resources
13. Which renewable energy technology utilizes the Earth's natural heat from the interior?
 - a. Solar photovoltaic
 - b. Geothermal
 - c. Wind energy
 - d. Biomass
14. The acronym "RES" in the context of renewable energy stands for?
 - a. Renewable Energy Standard
 - b. Renewable Energy Source
 - c. Regional Energy Strategy
 - d. Renewable Energy Subsidy
15. Which renewable energy source is commonly associated with the term "Tidal Energy"?
 - a. Solar power
 - b. Wind energy
 - c. Hydropower
 - d. Energy from ocean tides
16. The concept of "Power-to-X" involves converting excess renewable energy into?
 - a. Carbon offsets
 - b. Hydrogen or synthetic fuels
 - c. Electricity storage
 - d. Heat for industrial processes

17. The term "Hybrid Renewable Energy Systems" refers to?
 - a. Mixing renewable energy with fossil fuels
 - b. Combining multiple renewable energy sources in a single system
 - c. Hybrid cars using renewable energy
 - d. Renewable energy projects in urban areas
18. Which renewable energy technology captures energy from the movement of air masses and converts it into electricity?
 - a. Solar thermal power
 - b. Hydropower
 - c. Wind energy
 - d. Biomass
19. The "Cascading Effect" in energy efficiency refers to?
 - a. Efficient use of water in hydropower generation
 - b. Reusing waste heat from one process in another
 - c. Decreasing energy efficiency over time
 - d. The impact of climate change on energy systems
20. Which country is the largest producer of solar energy globally?
 - a. China
 - b. United States
 - c. Germany
 - d. India

WASTE MANAGEMENT AND POLLUTION CONTROL

COURSE STRUCTURE

Duration: 34 Hours

Description: A course on Waste Management and Pollution Control aims to provide participants with a comprehensive understanding of the principles, practices, and strategies involved in managing waste and controlling pollution. The course covers various aspects related to waste management and environmental protection. Here's a course structure:

S.N.	TITLE	HOURS	RESOURCE PERSON
1	Introduction to Waste Management and Pollution Control		Mrs. Pragati Shrivastava
	Overview of the importance of waste management and pollution control.	04	Mrs. Pragati Shrivastava
	Understanding the impact of improper waste disposal and pollution on the environment and public health.	04	Mrs. Pragati Shrivastava
	Introduction to key waste management and pollution control concepts.	02	Mrs. Pragati Shrivastava
2	Types and Sources of Waste		Ms. Apoorwa Pandey
	Classification of different types of waste (e.g., solid waste, hazardous waste, electronic waste).	04	Ms. Apoorwa Pandey
	Identifying sources of waste generation (residential, industrial, commercial, etc.).	02	Ms. Apoorwa Pandey
	Legal and regulatory frameworks for hazardous waste management.	02	Ms. Apoorwa Pandey
3	Sustainable Waste Management and Pollution Reduction		Mr. F.R. Patel
	Integration of sustainability principles into waste management	04	Mr. F.R. Patel

SUMMARY

The Waste Management and Pollution Control course is a comprehensive exploration of the principles, practices, and strategies involved in effectively managing waste and controlling pollution. The course begins with an overview of the significance of waste management and pollution control, highlighting their impact on the environment and public health. Participants delve into the classification of waste types and sources of waste generation, from residential to industrial.

By the end of the course, participants gain a multidisciplinary understanding of waste management and pollution control, recognizing the need for collaboration among stakeholders to achieve sustainable and effective solutions. They are equipped to address environmental challenges and contribute to a cleaner and healthier environment for the future.

D.P. VIPRA LAW COLLEGE - VALUE-ADDED PROGRAMS

Annual Report 2022-23

INTRODUCTION:

This report focuses on the value-added programs offered by D.P. Vipra Law College in the latter half of 2022, specifically targeting semesters beyond the first. These programs aim to bridge the gap between theoretical legal knowledge and practical skills critical for future legal professionals.

PROGRAM FOCUS:

The report highlights four distinct programs offered:

- **Indigenous Rights and Environmental Law (LL.B. 1st Semester - August 22nd to September 10th, 2022):** This 32-hour program, led by Ms. Anita Tandon, Assistant Professor, equipped first-year LL.B. students with foundational knowledge in a rapidly evolving legal area. It explored the legal framework surrounding indigenous rights and environmental protection, preparing students to navigate complex legal issues at the intersection of these fields.
- **Waste Management and Pollution Control (LLB 5th Semester - September 12th to September 30th, 2022):** This 34-hour program, facilitated by Mrs. Pragati Shrivastava, Assistant Professor, catered to fifth-semester LLB students. It delved into the legal landscape of waste management and pollution control in India, equipping students with practical knowledge of relevant regulations and enforcement mechanisms. This specialized program equips students for potential careers in environmental law or corporate sustainability.
- **E-commerce and Online Contracting (B.A.LLB. 5th Semester - November 9th to November 26th, 2022):** This program, led by Ms. M. Priyanka, Assistant Professor, focused on the legal aspects of e-commerce and online contracting. Designed for fifth-semester B.A.LLB. students, it provided crucial insights into the rapidly growing digital market landscape. Students gained knowledge of legal frameworks governing online transactions, consumer protection, and dispute resolution in the e-commerce space.

A VALUE ADDED PROGRAMME ON CLIMATE CHANGE LAW AND POLICY

November 22 through December 9, 2021
12:30 PM to 2:30 PM

Certificates: A certificate of participation will be awarded upon successful completion

Registration: To secure your spot, please register by September 20th, 2021. Registration forms are available at office. Kindly submit your completed forms to concerned Programme coordinator.

Organized by:

About the Course:

To address the difficulties posed by global warming and its effects on the country, India has built comprehensive climate change legal and policy frameworks. The country's strategy focuses on both mitigation and adaptation to climate change, taking into account its responsibilities under international accords like as the Paris Agreement as well as its national interests. Overall, India's climate change legislation and policies indicate the country's commitment to solving climate concerns while seeking long-term economic growth. Despite implementation hurdles and resource restrictions, India's climate action initiatives continue to expand, positioning it as a key actor in global climate change mitigation and adaptation efforts.

NOTICE

Subject: Value Added Programme on the **Climate Change Law and Policy**.

Dear Students,

We are pleased to announce a Value Added Programme on **Climate Change Law and Policy**, designed to provide the students of LL.B. 1st semester with valuable insights and practical skills.

Key Highlights:

Course Duration: November 22 through December 9, 2021

Timing: 12:30 PM to 2:30 PM

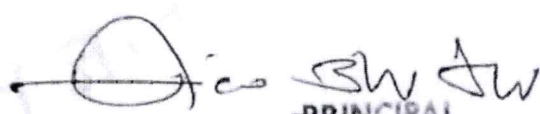

Facilitators: Faculties, Experienced professionals and experts in relevant field.

Certificates: A certificate of participation will be awarded upon successful completion

Registration: To secure your spot, please register by September 20th, 2021. Registration forms are available at office. Kindly submit your completed forms to concerned programme coordinator.

- For any queries or additional information, please contact the programme coordinator.
- Don't miss out on this valuable opportunity to enrich your skills/field knowledge. We look forward to your active participation.

COURSE STRUCTURE

Duration: 30 Hours

A course on Climate Change Law and Policy in India focuses specifically on the legal and policy frameworks related to climate change within the country. It provides an in-depth understanding of India's efforts to address climate change, including mitigation, adaptation, and international cooperation. Below is a sample course structure for such a program:

1. Introduction to Climate Change Science and Impacts in India:
 - Understanding the scientific basis of climate change and its implications for India
 - Examination of climate-related challenges and vulnerabilities in different regions of the country
 - Introduction to India's Nationally Determined Contributions (NDCs) under the Paris Agreement
2. National Policy and Legal Framework for Climate Change:
 - Overview of India's National Action Plan on Climate Change (NAPCC)
 - Analysis of the legal and policy instruments for climate change mitigation and adaptation in India
 - Role of central and state governments in climate governance
3. Climate Change Mitigation Strategies in India:
 - Study of India's efforts to reduce greenhouse gas emissions across different sectors
 - Analysis of renewable energy promotion, energy efficiency measures, and carbon pricing initiatives
 - Evaluating the challenges and opportunities in transitioning to a low-carbon economy
4. Climate Change Adaptation and Resilience in India:
 - Understanding India's strategies for building resilience to climate impacts
 - Case studies on climate adaptation projects and disaster risk reduction measures
 - Assessing the legal aspects of climate resilience planning and implementation
5. Climate Change Litigation and Advocacy in India:
 - Study of climate change-related legal cases and their outcomes in Indian courts
 - Role of civil society organizations and advocacy groups in shaping climate policies
 - Analysing the effectiveness of legal strategies in advancing climate action in India

SUMMARY

India has developed comprehensive climate change law and policy frameworks to address the challenges posed by global warming and its impacts on the country. The nation's approach focuses on both climate change mitigation and adaptation, considering its commitments under international agreements like the Paris Agreement and its national priorities.

Overall, India's climate change law and policy landscape reflect the country's commitment to addressing climate challenges while pursuing sustainable economic growth. Despite challenges in implementation and resource constraints, India's efforts towards climate action continue to evolve, making it a significant player in global climate change mitigation and adaptation efforts.

VALUE ADDED PROGRAM WILL BE HELD ON "CLIMATE CHANGE LAW AND POLICY"

MM: 40

Duration: 60Mins.

Note:

- All question are compulsory.
- Each question carries 2 marks.

1. Which international agreement aims to limit global temperature rise well below 2 degrees Celsius above pre-industrial levels?
 - a. Paris Agreement
 - b. Kyoto Protocol
 - c. Copenhagen Accord
 - d. Montreal Protocol
2. The Intergovernmental Panel on Climate Change (IPCC) assesses scientific information related to climate change and provides policymakers with regular assessments. When was it established?
 - a. 1985
 - b. 1992
 - c. 2001
 - d. 2010
3. The concept of "Common but Differentiated Responsibilities (CBDR)" in climate change negotiations implies?
 - a. Equal responsibilities for all nations
 - b. Differentiated responsibilities based on historical emissions and capabilities
 - c. Exclusive responsibilities for developed nations
 - d. No responsibilities for developing nations
4. Which greenhouse gas is primarily responsible for the enhanced greenhouse effect and global warming?
 - a. Methane
 - b. Carbon dioxide
 - c. Nitrous oxide
 - d. Ozone
5. The Kyoto Protocol, adopted in 1997, established legally binding emission reduction targets?
 - a. Developed countries only
 - b. Developing countries only
 - c. All countries
 - d. Least developed countries only
6. The "Loss and Damage" mechanism in climate negotiations addresses the impacts of climate change that are beyond adaptation efforts. In which international agreement is this mechanism included?
 - a. Paris Agreement
 - b. United Nations Framework Convention on Climate Change (UNFCCC)
 - c. Copenhagen Accord
 - d. Kyoto Protocol
7. The REDD+ program focuses?
 - a. Renewable energy development
 - b. Forest conservation and sustainable management

D. P. Vipra Law College Bilaspur

Approved from BCL, Affiliated to Atal Bihari Vajpayee Vishwavidyalaya, Bilaspur (C.G.)

<https://dpvipralawcollege.ac.in> Email - dpvlawprincipal@yahoo.com PH. No. - 9926165945, 9926138734

- e. Carbon capture and storage
 - d. Climate adaptation measures
8. What is the primary aim of the Green Climate Fund (GCF)?
- a. Financing climate change research
 - b. Supporting climate change adaptation and mitigation projects in developing countries
 - c. Promoting carbon trading schemes
 - d. Funding renewable energy projects globally
9. The concept of "Net Zero" in the context of climate action refers to?
- a. Zero emissions from developed countries
 - b. Achieving zero carbon footprint in a specific sector
 - c. Balancing emissions with removals through carbon sinks
 - d. Zero tolerance for environmental pollution
10. Which country is the largest emitter of greenhouse gases globally?
- a. United States
 - b. China
 - c. India
 - d. Russia
11. The Montreal Protocol primarily addresses the phase-out of substances that deplete?
- a. Ozone layer
 - b. Greenhouse gases
 - c. Carbon sinks
 - d. Nitrogen oxide emissions
12. The concept of "Adaptation" in climate change refers?
- a. Reducing emissions to mitigate climate change
 - b. Adjusting to the adverse impacts of climate change
 - c. Financial support for climate change projects
 - d. International cooperation on climate policies
13. Which of the following is an example of a geoengineering technique to mitigate climate change?
- a. Afforestation
 - b. Carbon capture and storage (CCS)
 - c. Solar radiation management
 - d. Wind energy generation
14. The NDCs (Nationally Determined Contributions) submitted by countries under the Paris Agreement outline their commitments?
- a. Adaptation only
 - b. Mitigation only
 - c. Both adaptation and mitigation
 - d. Financial contributions to the Green Climate Fund
15. The concept of "Climate Justice" emphasizes?
- a. Equal distribution of climate impacts
 - b. Legal actions against climate change offenders
 - c. Equitable burden-sharing in addressing climate change
 - d. Exclusive responsibility of developed nations
16. The Doha Amendment to the Kyoto Protocol includes commitments for emission reductions for the second commitment period. When does this period start?
- a. 2012

- b. 2020
 - c. 2030
 - d. 2050
17. Which international body facilitates negotiations and consensus-building on climate change issues among Parties to the UNFCCC?
- a. UNDP (United Nations Development Programme)
 - b. UNEP (United Nations Environment Programme)
 - c. COP (Conference of the Parties)
 - d. UNFPA (United Nations Population Fund)
18. The concept of "Carbon Footprint" measures?
- a. Total carbon emissions of a country
 - b. Carbon emissions per capita
 - c. Carbon sequestration capacity
 - d. Carbon pricing mechanisms
19. The "Rising Sea Levels" due to climate change pose a threat to?
- a. Desertification
 - b. Ocean acidification
 - c. Small island nations and coastal areas
 - d. Glacier retreat
20. Which of the following is NOT a greenhouse gas?
- a. Methane
 - b. Carbon dioxide
 - c. Nitrogen oxide
 - d. Sulfur hexafluoride

A VALUE ADDED PROGRAMME ON ON ENERGY LAW AND RENEWABLE ENERGY

Certificates: A certificate of participation will be awarded upon successful completion of the programme.

•Registration: To secure your spot, please register by September 1st, 2021. Registration forms are available at office. Kindly submit your completed forms to concerned programme coordinator.

Organized by:

About the Course:

Despite there has been development in the renewable energy sector, India still confronts a number of problems. These include challenges with land acquisition, grid interconnection, and the availability of large-scale project finance. Despite these obstacles, India remains committed to renewable energy. To address grid stability and improve the integration of renewable energy into the power system, the government is aggressively researching emerging technologies such as energy storage and distributed energy systems. Overall, India's energy legislation and renewable energy regulatory framework reflect a proactive commitment to tackling climate change and moving to a more sustainable and cleaner energy future. As the industry evolves, the country is anticipated to stay at the vanguard of the global fight to address climate change and create economic growth.

5	Objective	To clean our surrounding
6	Description	<p>The Cleanliness Drive held on October 2, 2018, at D.P. Vipra Law College in Bilaspur, Chhattisgarh, was a concerted effort involving 36 enthusiastic participants. The primary objective of this initiative was to enhance the cleanliness of our immediate surroundings.</p> <p>Under the bright morning sun, students and faculty members gathered with a shared determination to make a positive impact. Armed with gloves, garbage bags, and a strong sense of community spirit, everyone worked tirelessly to pick up litter, sweep pathways, and ensure every corner of the college premises was spotless.</p> <p>The drive not only aimed at physical cleanliness but also fostered a deeper sense of responsibility and civic duty among the participants. It served as a reminder of the importance of maintaining a clean environment for the well-being of all community members.</p> <p>Throughout the event, there was a palpable sense of accomplishment and camaraderie as individuals came together for a common cause. The Cleanliness Drive at D.P. Vipra Law College not only left the campus looking pristine but also left a lasting impression on everyone involved, reinforcing the values of cleanliness and community participation.</p>

9.	<u>Descriptions:</u> The Swachh Bharat Abhiyan Camp organized by N.S.S. D.P. Vipra Law College, Bilaspur (C.G.), on August 7th, 2021, at Bhakurra Navapara, Bilaspur, was a significant endeavor towards realizing the vision of a plastic-free India. With the participation of 2 teachers, 35 students, and 80 other stakeholders, the one-day awareness campaign aimed to raise consciousness about the detrimental effects of plastic pollution and mobilize efforts towards building a cleaner and more sustainable environment. The campaign began with an informative session highlighting the environmental, social, and economic impacts of plastic waste on ecosystems, wildlife, and human health. Through presentations, discussions, and interactive activities, participants gained insights into the importance of reducing, reusing, and recycling plastics, as well as adopting eco-friendly alternatives to single-use plastics. Armed with this knowledge, volunteers from N.S.S. D.P. Vipra Law College spearheaded various activities and initiatives to promote the message of a plastic-free India within the community of Bhakurra Navapara. They organized cleanliness drives, waste segregation activities, and plastic waste collection campaigns, actively involving local residents and encouraging them to take ownership of their surroundings. Additionally, the campaign included outreach efforts to educate and engage stakeholders from diverse backgrounds, including schools, businesses, and		

NATIONAL SERVICE SCHEME

D.P. VIPRA LAW COLLEGE, BILASPUR (C.G.)

government agencies. Volunteers distributed informational materials, conducted street plays, and facilitated discussions to raise awareness and inspire action towards reducing plastic consumption and promoting sustainable waste management practices.

The Swachh Bharat Abhiyan Camp served as a catalyst for behavior change and community empowerment, fostering a sense of environmental stewardship and collective responsibility among participants. By mobilizing students and other stakeholders to take proactive measures against plastic pollution, N.S.S. D.P. Vipra Law College contributed significantly to the broader national objective of building a cleaner, greener, and more resilient India.

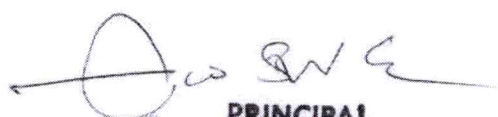

Through sustained efforts and collaborative action, campaigns like these play a crucial role in driving systemic change and paving the way towards a future where plastic pollution is no longer a threat to our planet and its inhabitants.

9.	<u>Descriptions:</u> The Plastic Mukht Bharat Abhiyan organized by N.S.S. D.P. Vipra Law College, Bilaspur (C.G.) on August 12th, 2021, at River View, Bilaspur, was a significant step towards combating the pervasive issue of plastic pollution and promoting environmental sustainability. With the participation of 3 teachers and 25 students, the event aimed to raise awareness about the detrimental effects of plastic on the environment and mobilize efforts to eliminate plastic waste from the surroundings. The event kicked off with an informative session highlighting the environmental hazards posed by single-use plastics and the urgent need for concerted action to address this pressing issue. Participants were educated about the adverse impacts of plastic pollution on ecosystems, wildlife, and human health, underscoring the importance of adopting eco-friendly alternatives and reducing plastic consumption. Following the awareness session, the stakeholders actively engaged in a cleanup drive along the River View area, targeting plastic litter and other waste materials. Equipped with gloves, trash bags, and other cleaning tools, the participants worked tirelessly to collect and properly dispose of the accumulated plastic waste, thereby restoring the natural beauty of the surroundings and safeguarding the ecosystem. In addition to the cleanup activities, the event also included interactive discussions, workshops, and presentations focused on sustainable waste management practices, recycling initiatives, and the promotion of biodegradable alternatives to plastic. These educational sessions empowered the participants		

NATIONAL SERVICE SCHEME D.P. VIPRA LAW COLLEGE, BILASPUR (C.G.)

with knowledge and practical strategies to tackle plastic pollution at both individual and community levels.

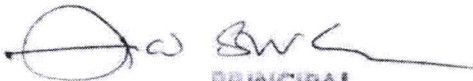

By organizing the Plastic Mukta Bharat Abhiyan, N.S.S. D.P. Vipra Law College demonstrated its commitment to environmental conservation and social responsibility. Through collective action and community engagement, the event fostered a sense of environmental stewardship among the participants and inspired them to become agents of change in building a cleaner, greener, and plastic-free India.

		Student	36
9.	<u>Descriptions:</u> As part of the Swachh Bharat Abhiyan awareness campaign conducted by the National Service Scheme (NSS) and D.P. Vipra Law College, several initiatives were undertaken to promote cleanliness, hygiene, and sanitation practices among students and the wider community. Here's a description of the activities conducted: Awareness Workshops: The NSS team and college authorities organized awareness workshops and seminars to educate students about the importance of cleanliness and sanitation in personal and community health. These workshops highlighted Gandhi's emphasis on cleanliness as a fundamental aspect of human dignity. Cleanliness Drives: Volunteers participated in cleanliness drives within the college campus and surrounding areas. These drives involved activities such as litter picking, waste segregation, and cleaning of public spaces. By actively engaging in these activities, students learned the practical aspects of maintaining cleanliness. Poster and Slogan Competitions: To foster creativity and engagement, poster making and slogan writing competitions were organized. Participants were encouraged to come up with catchy slogans and visually appealing posters that conveyed the message of Swachh Bharat and the importance of cleanliness. Community Outreach Programs: NSS volunteers extended their efforts beyond the college campus by organizing awareness campaigns in nearby communities. They conducted door-to-door campaigns, street plays, and interactive sessions to educate residents about the significance of sanitation and encourage them to adopt hygienic practices.		

NATIONAL SERVICE SCHEME D.P. VIPRA LAW COLLEGE, BILASPUR (C.G.)

Collaboration with Local Authorities: The NSS team collaborated with local municipal authorities to implement sustainable waste management practices in the community. This collaboration facilitated the establishment of waste collection systems, proper disposal mechanisms, and regular cleaning of public spaces.

Tree Plantation Drives: Recognizing the interconnectedness of cleanliness and environmental sustainability, tree plantation drives were organized as part of the campaign. Planting trees not only contributes to a cleaner environment but also instills a sense of responsibility towards nature among the participants.

Digital Campaigns: In addition to offline activities, digital campaigns were launched through social media platforms and college websites to reach a wider audience. Students shared informative posts, videos, and infographics to spread awareness and encourage active participation in the Swachh Bharat Abhiyan.

Through these concerted efforts, the NSS team and D.P. Vipra Law College aimed to instill a sense of responsibility towards cleanliness and sanitation among students and the community at large, thereby contributing to the realization of Mahatma Gandhi's dream of a Swachh Bharat.

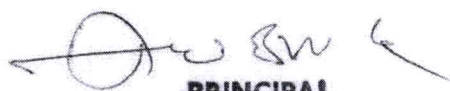

Awareness campaign was conducted by volunteers of national service scheme D. P. VIPRA LAW COLLEGE, BILASPUR (C.G.) on 2nd October 2021.

Participants actively engaged in cleaning various locations, including classrooms, corridors, and nearby streets, thereby contributing to a cleaner and more hygienic environment. The event also included educational sessions on sanitation practices, waste management, and the detrimental effects of littering and pollution on the ecosystem.

The Swachhata Abhiyan not only promoted hands-on participation in cleanliness initiatives but also fostered a spirit of civic responsibility and environmental consciousness among students and teachers. By organizing such events, D.P. Vipra Law College demonstrated its commitment to community service and sustainable living practices, inspiring others to take proactive steps towards maintaining cleanliness in their surroundings.
